

It's Sale Time!

Mitchell & Jewell's annual half-price sale is happening October 30, 31, and November 1; just in time for early Christmas shopping. See the paper for more details.

Albertan Ammolite

As a mirror to the gorgeous fall foliage, ammolite captures the colours of autumn in a single gem.

Polished from the fossilized shell of ammonite, this opal-like gem can contain several brilliant colours that meld together in a show that is reminiscent of our beautiful Northern Lights.

Gem-quality ammolite is only found in Southern Alberta, so these extraordinary pendants, rings, and earrings are a truly Canadian gift that will be treasured for a lifetime.

Ammolite & 14k gold pendant
